By REV. CALVIN M. THOMPSON, JR., D.D. Delaware Baptist Church, Syracuse, N. Y. TIME FOR INSPIRATION

After 40 days alone in the Mountain with God, Moses returned to his people with the Ten Commandments. Those rules for life ere as important and useful today as they were four thousand years ago. After 40 days in the wilderness the

Master returned to live a life so rich and fluitful that His actions and His teachings are the basis for solid living and progress in our earth. Time alone, with God, offers to individuals

is a change for inspiration and knowledge found in no other way. It is not necessary to go into some describing or to remove from the world of which we are a part. It is necessary to withdraw the mind from things material and secular and fill it with that which is eternal and spiritual Perhaps for a few moments in the office or at one's business this withdrawnt can be attained.

Wise is this nation that its people choose a period as the earth moves toward apringtime when 40 such days are offered to all the people. Let us make the most of these days and come back with that inspiration needed to enrich life for ourselves, and through us, for all others,
